G. NEW BUSINESS

1. Consideration of Approving the First Annual Water Supply Demand Assessment for the Department of Water Resources (DWR)

GM reviewed the report highlighting the analysis result evidencing the District has a 187% water surplus over the coming year.

Public Comment: Referring to J.A. Savage's June 14 email suggesting the average rain fall should be less than 45 inches/year when incorporating the shortfall of the last several years, GM advised the report will be updated to a 40.4-inch value which does not impact the overall results.

IT WAS THEN MOVED BY DIRECTOR MATTEOLI, SECONDED BY DIRECTOR GARDINER, TO APPROVE AND ADOPT THE 2022 WATER SUPPLY DEMAND REPORT. MOTION CARRIED UPON THE FOLLOWING ROLL CALL VOTE:

AYES: BENZONELLI, BONGIO, GARDINER, HANSEN, MATTEOLI NOES: NONE ABSENT: NONE 2. First Reading of Fiscal Year 2022/23 Budget

FM summarized the report identifying significant highlights of the proposed budget. Discussion included:

- Grant assistance process and potential value to the District
- Potential benefits and hazards of increasing the District's produced (well) water sources.
- Rate Study delays are the result of waiting for critical information from the City of Eureka related to the wastewater treatment plant.
- Upon completion of the Rate Study, a revised budget that captures updated projections will be addressed.
- Escalation methods/factors used to project water purchase and sewage operation expenses.
- Maintenance Supplies and Water and Sewer expenses are projected to be less than the current fiscal year actual expenditures due to several emergency expenses related to main line breaks, etc.
- A request for incorporating per cent change column from the previous fiscal year.

PUBLIC COMMENT: None

By consensus, the Board requested the budget be finalized without change for adoption at the next regular meeting.

3. Consideration of Adopting Resolution 2022-08 Establishing Appropriations Limit for Fiscal Year 2022/23

FM summarized the report and calculation methodology without question.

PUBLIC COMMENT: None

IT WAS THEN MOVED BY DIRECTOR MATTEOLI, SECONDED BY DIRECTOR GARDINER, TO ADOPT RESOLUTION NO. 2022-08 ESTABLISHING APPROPRIATIONS LIMIT FOR FISCAL YEAR 2022/2023. MOTION CARRIED UPON THE FOLLOWING ROLL CALL VOTE:

AYES: BENZONELLI, BONGIO, GARDINER, HANSEN, MATTEOLI NOES: NONE ABSENT: NONE

4. Consideration of Adopting Resolution 2022-09 Passing Through Wastewater Treatment Charges for Annual Adjustment of Service Rates DRAFT – MINUTES OF THE JUNE 14, 2022 CONTINUED MEETING OF THE BOARD OF DIRECTORS OF THE HUMBOLDT COMMUNITY SERVICES DISTRICT Continued; June 21, 2022

FM reviewed the recommendation to maintain the existing pass-through rates in order to recoup \$632,538 of City of Eureka wastewater treatment plant operation and CIP expenditures in excess of those budgeted from FY 2017/2018 through 2021/2022.

PUBLIC COMMENT: None

IT WAS THEN MOVED BY DIRECTOR HANSEN, SECONDED BY DIRECTOR BENZONELLI, TO ADOPT RESOLUTION NO. 2022-09 PASSING THROUGH WASTEWATER TREATMENT CHARGES FOR ANNUAL ADJUSTMENT OF SERVICE RATES FOR FISCAL YEAR 2022/2023. MOTION CARRIED UPON THE FOLLOWING ROLL CALL VOTE:

AYES: BENZONELLI, BONGIO, GARDINER, HANSEN, MATTEOLI NOES: NONE ABSENT: NONE

I. ADJOURNMENT

There being no further business, IT WAS MOVED BY DIRECTOR MATTEOLI, SECONDED BY DIRECTOR BENZONELLI, TO ADJOURN. MOTION CARRIED UPON THE FOLLOWING ROLL CALL VOTE:

MEMORANDUM

TO: Board of Directors

FROM: Terrence Williams, General Manager

DATE: June 24, 2022

SUBJECT: General Manager Report for June 28, 2022 Board Meeting

COVID

I am happy to report that, at the time of this writing, there have been no new COVID cases among District staff since our meeting last week. I hope to keep it that way.

Elk River Estuary Enhancement Project

Construction on the City's Elk River Estuary Enhancement Project has begun. If you look to your right while driving south down Highway 101 south of Herrick, you will see heavy equipment in the space between the highway and the bay. That equipment is working to regrade the area to reestablish salt water marsh and tidally influenced habitat. The District has a sewer forcemain that traverses the entire length of the project site adjacent to the Railroad right-of-way along the edge of the bay. District staff have stayed in constant contact with project personnel with the City and City contractors to ensure the protection of the District's assets.

Additionally, District staff have taken steps as precautionary measures in case something does happen to the District's forcemain. First, two 20,000-gallon temporary storage tanks have been staged at the South Broadway Lift Station site that can be used to take flow off of the forcemain so that emergency repairs can be made. Flows through the lift station are about 40,000 per day so this temporary storage will provide about a day to make the repair. These tanks are rectangular in shape and can be seen on the side of South Broadway Street if you are traveling south of the Humboldt Hill exit from Highway 101, directly in front of the South Broadway Lift Station.

The District has also established a memorandum of understanding with several contractors including Steve's Septic and Wahlund Construction to use their septage hauling trucks to move wastewater from the lift station to the wastewater treatment plant if the need arises. Between the District's vac trucks, the City's vac trucks and the contractor's septage hauling trucks, we will be able to move about 10,000 gallons per load. These combined resources should allow us to make emergency repairs that exceed the time enabled by the onsite temporary storage. Let's hope the need doesn't arise.

Engineering Memorandum

Tower Drive

District Engineering staff have completed construction drawings for the Tower Drive waterline replacement project. The project will replace approximately 580 feet of aged steel waterline, with C900 pipe. In addition to replacing the steel pipe with plastic, the line is being upsized to support the installation of a fire hydrant to serve the surrounding properties, there is currently no hydrant on this road. The new pipe will be placed in the edge of the narrow private lane that serves six homes. Staff are coordinating with the residents to minimize the project's impact to their neighborhood and commutes. Construction will begin in July. In accordance with the District's Streambed Alteration Agreement, California Department of Fish and Wildlife will be contacted in advance of the portion of the pipe crosses an unnamed tributary to Freshwater Slough which leads to Humboldt Bay.

Elk River Emergency Repair

Emergency repairs on the two 8" transmission lines which cross the Elk River Slough/Estuary are complete. The area is tidally influenced and an extremely corrosive environment for metallic pipe fittings. Metallic fittings installed 3 years ago had been compromised to the point of failure. Under this emergency repair, to the extent possible, the compromised metallic fittings have been replaced with non-metallic fittings, which are more resilient to the elements in this environment. Where the use of ductile iron fittings could not be avoided, the fittings were encased in concrete to help reduce the potential for corrosion. District Engineering staff have been working with SHN permitting specialists to ensure the appropriate agencies have been notified of the rupture and emergency repair work. Now that the repairs are complete, the final notifications and an encompassing project description will be submitted to the California Water Board, and the Coastal Commission.

On June 3rd, District Staff were invited to meet with local project representatives who are in the beginning planning stages of the Elk River Stewardship Project. This project aims to enhance the Elk River Slough area that our aforementioned transmission mains traverse. The meeting included a discussion of final design options which may include realigning the transmission mains or directional drilling under the entire project area.

The proponents of the Elk River Stewardship Project are actively working to identify funding to help with the relocation of District facilities to help ease the burden to ratepayers. District staff are grateful to have been contacted at the beginning of the planning stages for this project.

Humboldt Community Services District Notes May 2022

Note 1 - Account Fees

Under the California State Water and Wastewater arrearage program, the district was required to remove associated account late fees.

Note 2 - Non Operating and Miscellaneous Revenue

Most non-operating and Miscellaneous income occurs occasionally throughout the year, or at the very end of the fiscal year.

Note 3 - Supplies - Construction and Supplies - Maintenance

Supplies for construction and maintenance were higher than expected primarily due to two unexpected necesarry expenditures: Hot asphalt paving was an unplanned construction expense due to a large water main break on Lucia Ave, and the Pine Hill pump was an unplanned maintenance expense due to pump failure.

Note 4 - Invoicing and Bank fees

Invoicing costs have increased in the current fiscal year due to an increase in postage coupled with implementation of a new online payment system. These increases have been offset by reductions in bank fees associated with the new online payment system.

Note 5 - Memberships & Subscriptions

Annual dues to ACWA paid in October. Very little additional expenses expected to Memberships & Dues for remainder of FY.

Note 6 - Miscellainious

Primary source of miscellanious expense overage is from repairs after recent vadalism

Note 7 - Loan Payments

Loan payments occur periodically throughout the year. Payments for the full year will match budgeted amount for the full year.
